

Your Paper Title, Capitalize Each Letter

First Author¹ and Second Author^{2,*}

Abstract: Please type your abstract here. Abstract of a research paper is typically 200 to 400 words in length, and 150 to 300 words for a review paper. Abstract shall be running continuously (not structured) and shall not include reference citations. Abbreviations that appear only once in the abstract should be defined in full. If abbreviations appear more than once, the full definitions should be provided first before they can be used elsewhere.

Keywords: Manuscript, preparation, typeset, format.

1. Introduction

Authors are encouraged to use the template for Microsoft Word, to prepare the final version of their manuscripts and facilitate typesetting. Authors may elect to submit two versions of their manuscript, one for the printed version of the journal, and the other for the on-line version of the journal. Illustrations in color are allowed only in the on-line version of the journal.

2. Structure

A paper for publication can be subdivided into multiple sections: a title, full names of all the authors and their affiliations, a concise abstract, a list of keywords, , main text (including figures, equations, and tables)), acknowledgements, references, and appendix.. Running title is optional.

2.1. Text Layout

Acceptable paper size is US Letter (8.5" x 11" or 21.59 cm×27.94 cm)All margins — top, bottom, left, and right — are set to 1.5" (3.81 cm). The paper must be single column ,single spaced, except for the headings as outlined below. Acceptable font is Times New Roman, 11 pt., except for writing special symbols and mathematical equations.

2.2. Headings

Level one headings for sections should be in bold, and be flushed to the left. Level one

¹First affiliation, Address, City and Postcode, Country.

²Second affiliation, Address, City and Postcode, Country.

*Corresponding Author: Author's Name. Email: author@institute.xxx.

heading should be numbered using Arabic numbers, such as 1, 2,

Level two headings for subsections should be in bold-italic, and be flushed to the left. Level two headings should be numbered after the level one heading. For example, the second level two heading under the third level one heading should be numbered as 3.2.

Level three headings should be in italic, and be flushed to the left. Similarly, the level three headings should be numbered after the level two headings, such as 3.2.1, 3.2.2, etc.

3. Equations and Mathematical Expressions

Equations and mathematical expressions must be inserted into the main text. Two different types of styles can be used for equations and mathematical expressions. They are: in-line style, and display style.

3.1. In-line Style

In-line equations/expressions are embedded into the paragraphs of the text. For example, $E = mc^2$. In-line equations or expressions should not be numbered and should use the same/similar font and size as the main text.

3.2. Display Style

Equations in display format are separated from the paragraphs of the text. Equations should be flushed to the left of the column. Equations should be made editable. Displayed equations should be numbered consecutively, using Arabic numbers in parentheses. See Eq. 1 for an example. The number should be aligned to the right margin.

$$E = mc^2 \tag{1}$$

4. Figures and Tables

Figures and tables should be inserted in the text of the manuscript.

4.1. Figures

Figures should have relevant legends but should not contain the same information which is already described in the main text. Figures (diagrams and photographs) should also be numbered consecutively using Arabic numbers. They should be placed in the text soon after the point where they are referenced. Figures must be submitted in digital format, with resolution higher than 300 dpi.

4.1.1. Figure Format

Figures should be centered, and should have a figure caption placed underneath. Captions should be centered in the column, in the format "Figure 1. The text caption ...", where the number of the figure follows the key word Figure, and the text caption comes right after that.

The size of the figure is measured in centimeters and inches. Please prepare your figures at the size within 17 cm (6.70 in) in width and 20 cm (7.87 in) in height. Figures should

be in the original scale, with no stretch or distortion.

4.1.2. Figure Labels and Captions

Figure labels must be sized in proportion to the image, sharp, and legible. Label size should be no smaller than 8-point and no larger than the font size of the main text. Labels must be saved using standard fonts (Arial, Helvetica or Symbol font) and should be consistent for all the figures. All labels should be in black, and should not be overlapped, faded, broken or distorted. A space must be inserted before measurement units. The first letter of each phrase, NOT each word, must be capitalized.

One-line Caption should be centered in the column, in the format of “**Figure 1.** The text caption ...” That is, the number of the figure follows the keyword **Figure**, and next to it, the text caption. For one example, see Fig. 1 below.

Figure 1: Some functions of x

4.2. Tables

Tables should also be numbered consecutively using Arabic numbers. They should be placed in the text soon after the point where they are referenced. Tables should be centered and should have a table caption placed above. Captions should be centered in the format “**Table 1.** The text caption ...”. For one example, see Tab. 1.

Table 1: Table caption

1	2	3
---	---	---

11	12	13
----	----	----

21

22

23

5. Citations

The author-year format of the citation must be used for the references. The author-year format of the citation must be used for the references. For example, [Atluri (1986)]. If the cited reference has three authors, please see the example, [Atluri, Nakagaki and Han (2000)]. If the cited reference has more than three authors, please cite all first three authors' last names, and followed by "et al.". For example, [Atluri, Nakagaki, Han et al. (2000)]. When you cite more than one reference, please cite each reference and separate them by a semicolon, see [Atluri (1998); Atluri and Nakagaki (1986); Atluri, Nakagaki and Han (2000); Atluri, Nakagaki, Han et al. (2000)]. If the sentence starts with a referenced author's name, please cite right after the author's name. For example, "Atluri et al. [Atluri, Nakagaki, Han et al. (2000)] have found that...". No citation to the page number should be used.

Acknowledgement: Acknowledgements and Reference heading should be left justified, bold, with the first letter capitalized but have no numbers. Text below continues as normal.

References

All references should be listed at the end of the paper. The names of the authors should be in bold, with the last name(s) first. The year in which the paper is published follows the name (s) of the author(s). Journal and book titles should be in italic. A full name of journal cited in reference should be used followed by a comma before the volume, issue and page number. Please see the examples below:

References (References at the end should be listed in alphabetical order):

Appendix A. Example of appendix

Authors that need to include an appendix section should place it before the References section. Multiple appendices should all have headings in the style used above. They will be ordered A, B, and C etc.
